Software and Online Servises

LiRI also has licences for a varity of software both for experiment presentation and data analysis. These are available both for loan with a laptop or on a dedicated data processing system in the lab. LiRI also hosts its own RedCap server for research data collection and serveys. LilI also has a lab subscription to the Gorilla online experiment platform.

Experiment Presentation

We generally recoment using open experiment presentation pacages like Psychopy but, we do also have licence for the following

- Presentation (Currently installed in EEGBooth5).
- ePrime
- Experiment Builder
- Tobii Pro Lab

Data Alalysis

- Tobii Pro Lab and Analyser
- DataViewer
- BrainVision Analyzer
- LENA Pro

Online Services

LiRI also hosts its own RedCap server for research data collection and serveys. LiRI also has a lab subscription to the Gorilla online experiment platform.
