

Lab

Welcome to the part of the wiki relating to the LiRI Lab

Working with us

Each LiRI project must be registered and have a designated principal investigator. This person, primarily responsible for the content, realization and finance of the project. The primary user can authorize further researchers, associate LiRI users. All users must be registered in order to have access to the LiRI booking system and infrastructure.

Regulations

You can find all documentation relating to the regulation of LiRI [here](#).

Project Management

All lab projects and equipment loans are managed through the LiRI Management system [bFabric](#). A manual for bFabric can be found [here](#).

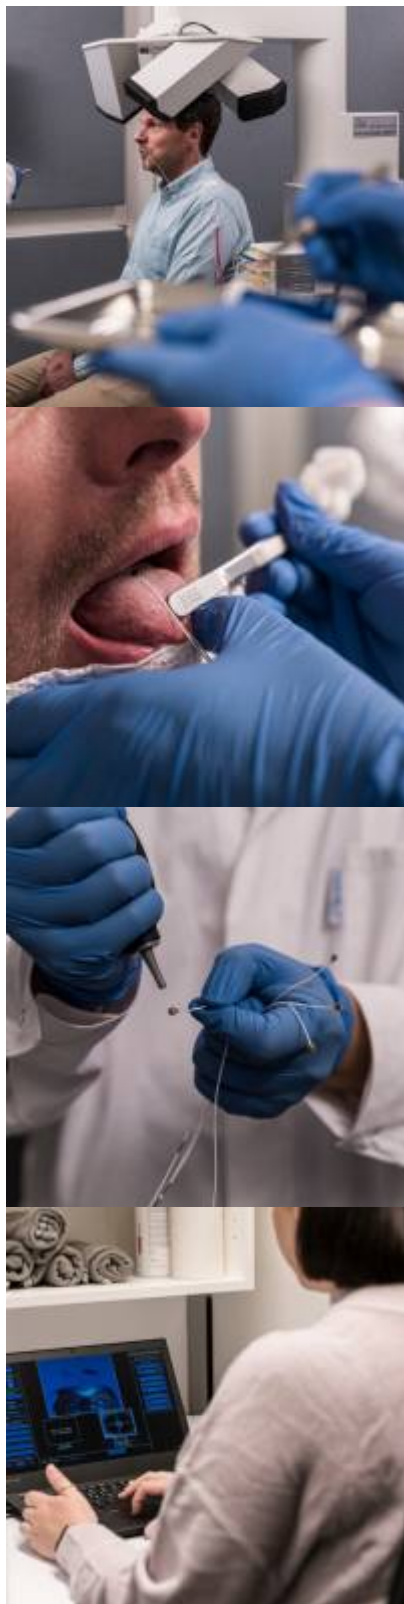

LiRI Lab

The LiRI Lab is equipped with a wide array of equipment for investigating any aspect of language. As well as the lab itself we also operate an equipment loan service. You can find more information about the lab and the equipment available below.
